

SHOW AND TELL ACTIVITY ON EARTH DAY

The students of class II conducted the Show and Tell Activity on Earth Day to highlight the problems related to environment in our lives. The activity started with the presentation of students who enthusiastically participated with the colorful props, followed by interaction and discussion by the Principal Sir with students on the importance of the Earth Day as it marked the understanding of environmental problems, we all face every day caused by the wastage of water, food and increased use of plastic in our daily lives so we have to stop wastage and plant more and more trees to support our Earth and environment.
